**17th INFORMS Workshop on Data Mining & Decision
Analytics **Poster Session Competition****

October 15th at 4pm EST

1st Place: \$500 2nd/3rd Place: Certificates

<https://sites.google.com/view/dmdaworkshop2022/home>

Are you a [student](#) or [practitioner](#) working on applied work in the fields of data mining or data science? This is your chance to share what you have been doing, network with scholars and practitioners in the field, and compete to potentially win some \$\$\$ for your efforts. Posters can be individual or team submissions. If a team submission wins an award the prize money will be split evenly among the team members.

To participate submit an unlisted YouTube video link of your at most 5-minute presentation [here](#) by **October 10th, 2022**.

Judges from both academia and industry will provide each submission feedback after the session has ended. Award winners will be announced at the INFORMS Section on Data Mining Business Meeting on Sunday, October 16th, 2022. All submissions must have at least one author registered to present (in-person) for the DMDA Workshop to qualify. A judging rubric can be found [here](#).

At the beginning of your video please show your entire poster on the screen before any introductions, or zooming into specific areas of your poster. Good luck!
